

Our son has attended The Cottage nursery since he was 9 months old. We are extremely happy with the care the nursery provides for him. He is a very happy and confident little boy and he loves his time at nursery. He has made strong bonds with the other children and staff and we take great comfort in the consistency of care he has always received, especially given the fact the staff we saw on day one are still there today.

We are very happy with his progress and the attention given to his individual emotional and educational needs. He always seems to be participating in an extensive range of innovative and exciting activities both indoors and in the garden. He has also recently really enjoyed his trips to the local library. We are extremely pleased with how he is progressing with his vocabulary and communications skills. We are amazed at how extensive his vocabulary is and how many written words he can actually recognise and repeat.

We receive detailed and consistent communication both written and verbal on what he has been doing and we cannot sing the praises of Tapestry enough. This app provides such an amazing insight into what he is up to and gives us a fantastic understanding of his EYFS progress. It really is the highlight of our working day when we receive an update!

We believe our son is cared for in a very safe and secure environment and we have never had any cause for concern in relation to his care.

He was originally signed up for an outstanding rated nursery in Sale prior to us moving to Monton. From our experience of The Cottage and feedback from friends who attend the other nursery my husband and I passionately believe the standard of care and development he receives far outweighs the other nursery. We viewed a number of nurseries in the area before deciding on this one and we are so pleased we went with our instinct and enrolled at The Cottage as we believe he is the amazing boy he is today because of it.

Kind Regards,

Liz
