

Dear Mrs Wakefield,

My daughter attends Clarendon Cottage nursery. I am very pleased with the care and attention that she receives during her time there, she is happy and staff are approachable and always available to discuss her progress. I feel that she is developing physically, socially and emotionally whilst at nursery and actively engages in all activities on offer. She is always bringing home work that she has created and her reports are thorough and reflective. When dropping and picking up my daughter up the building is always appears clean and tidy and resources appear well maintained. If any incidents occur I have always been contacted at the time and also a thorough statement is given to me at pick up.

Overall myself and my wife are very happy with the care and attention that she is given and would recommend this nursery to other parents.

Kind regards,

Keith Hall
